Walk and Talk with Jesus

Our superintendent, who is an esteemed part of NUC and has a background as a principal, recently shared an inspiring message during a sermon. She explained the remarkable story of Naaman, who was told by a little girl to pray to God. After Naaman heard this he decided to jump into the river seven times, and he was healed of his leprosy, highlighting the power of faith and obedience. She also illustrated God's giving by recounting the miracle of Jesus multiplying a young boy's small meal to feed a large crowd.

Additionally, she spoke about an extraordinary Rwandan child who, at just two years old, read Bible stories at his church and went on to preach over 60 times by the age of nine. Furthermore, she shared the touching story of 11-year-old Ryan, who, after entering a speech contest, chose to give away toys to those in need. The central message of her sermon was a call to action, emphasizing that God has called all his children no matter what age to serve him in various areas.
